

44th Annual Southeastern Consortium for Dermatology

List of Research and Clinical Abstracts

Nov 12-14, 2021 (Virtual)

Hosted by Emory University

Best Research Poster (tie)

Modulation of the mu and kappa opioid axis for the treatment of chronic pruritus

Sarina Elmariah
Emory University

*Clinical Decision-Making Bias in Darker Skin Types: A Prospective Survey Study
Identifying Diagnostic Bias in Decision to Biopsy*

Eman Hijab
Emory University

Best Research Poster – Runner-Up

Characterizing inpatient calciphylaxis

Shira Lanyi
Virginia Commonwealth University

Best Clinical Poster

Cutaneous siderosis successfully treated with Pulse Dye Laser

McKenzie Dirr
Medical University of South Carolina

People's Choice Clinical Award - Tie

Cutaneous Lupus Erythematosus/Lichen Planus Overlap Syndrome

Katherine Jicha
University of North Carolina

Incobotulinumtoxin A injection for the treatment of chronic, intractable scalp pruritus

Rachel Lee

List of Research Abstracts

First Author Name	Abstract Title	Institution
Devon Barrett	Non-Physician Clinicians in Dermatology Residencies: A Cross-Sectional Survey On Residency Education	Emory
Franklin Blum	PD-L1 INHIBITOR THERAPY FOR CUTANEOUS SKIN CANCER IN HIDRADENITIS SUPPURATIVA PATIENTS?: PRESENTING THE IMMUNOMARKER PROFILES OF HS-DERIVED SQUAMOUS CELL CARCINOMAS	UNC
Helen Bui	Delphi Consensus for Definitions of Hidradenitis Suppurativa Surgical Interventions	UNC
Lindsey Gaghan	EVALUATION OF A COMMUNITY EDUCATION TOOL FOR DETECTION OF NAIL MELANOMA BY NAIL SALON TECHNICIANS	UNC
Amaris Geisler	Hidradenitis Suppurativa Knowledge in U.S. Medical Students	UNC
Eman Hijab	Clinical Decision-Making Bias in Darker Skin Types: A Prospective Survey Study Identifying Diagnostic Bias in Decision to Biopsy	Emory
Alison Hollis	Chief Resident Selection in U.S. Dermatology Residency Programs	UNC
Sarah Joseph	E-consult to Dermatology at a County Hospital Pilot Review	Emory
Shira Lanyi	CHARACTERIZING INPATIENT CALCIPHYLAXIS	VCU
Olivia Lee	Relationship between Environmental Influences and Public Interest in Hidradenitis Suppurativa Using Google Trends	VCU
Eunice Lee	Senescent cells accumulate in the dermis of obese mice deficient in leptin signaling	Columbia (not eligible for prize)
